The attitude we take to power is almost invariably one of distrust, never more so than when it claims to be sovereign. And yet, we have always been drawn to sovereignty. Out of fear or fascination, we accepted that it was a condition of our liberty; that to assert ourselves as free, we would have to work not against but through sovereign power. This book retraces the history of the implication of sovereignty and liberty, an implication that has shaped the way we live together, as individuals and as political beings. Shedding new light on the work of key political and constitutional thinkers, including Marsilius of Padua, Hobbes, Hegel, Kelsen, and Schmitt, it identifies the conceptual operations that created sovereignty and shows how subjection to an absolute and undivided power came to be a source of meaning. At the heart of the analysis is the idea that sovereignty made reference to and relied upon a form of faith which aligned man's political existence on law. Offering new and often controversial insights into the grounds of our attachment to sovereign power and into the crisis that is currently affecting its institutions, this book will appeal to students and scholars of law, politics, history of philosophy, and the social sciences. The Bibliographic Index EUGEN EHRLICH is a guide through available materials containing information about the life, scientific, educational, legislative and social activities of the Austrian lawyer and university professor in the period of 1896-1918. Eugen Ehrlich was the Dean in 1901-1902 and 1908-1909 and the Vice-Dean of the Faculty of Law in 1902-1903 and 1909-1910, the Vice-Rector in 1907-1908, and the Rector of Franz Joseph University in Czernowitz in 1906-1907 (now Ukrainian: Chernivtsi). Moreover, ex officio, he was a member of the local parliament. The Index includes the foreword of the compilers, an introductory article, a selected basic chronology with the dates of the life and work of Eugen Ehrlich, and the four main structural parts: "List of works by Eugen Ehrlich", "Eugen Ehrlich as editor", "Literature about Eugen Ehrlich's life and activity" and "Appendices: Documents from Chernivtsi University Scientific Library holdings". "List of works by Eugen Ehrlich", "Periodicals with Eugen Ehrlich's publications", "List of used periodicals", and "Name index" are all provided for the convenience of users. The "Name index" includes all the names recorded in the main text of the publication (numbers of bibliographic records of works devoted to individual persons are enclosed in parentheses). The book contains photographs of Eugen Ehrlich and photographs of materials linked to his life and activities. They have made the bibliographic index more attractive and more interesting for readers. The Index can help users find necessary documents and verify the accuracy of existing information, that it becomes a prerequisite for further research, and finally, it will be useful to all who are interested in Eugen Ehrlich's life journey and scientific legacy. Shakespeare was fascinated by law, which permeated Elizabethan everyday life. The general impression one derives from the analysis of many plays by Shakespeare is that of a legal situation in transformation and of a dynamically changing relation between law and society, law and the jurisdiction of Renaissance times. Shakespeare provides the kind of literary supplement that can better illustrate the legal texts of the sixteenth and early seventeenth centuries. There was a strong popular participation in the system of justice, and late sixteenth-century playwrights often made use of forensic models of narrative. Uncertainty about legal issues represented a rich potential for causing strong reactions in the public, especially feelings concerning the resistance to tyranny. The volume aims at highlighting some of the many legal perspectives and debates emplotted in Shakespearean plays, also taking into consideration the many texts that have been produced during the latest years on law and literature in the Renaissance. European law, including both civil law and common law, has gone through several major phases of expansion in the world. European legal history thus also is a history of legal transplants and cultural borrowings, which national legal histories as products of nineteenth-century historicism have until recently largely left unconsidered. The Handbook of European Legal History supplies its readers with an overview of the different phases of European legal history in the light of today's state-of-the-art research, by offering cutting-edge views on research questions currently emerging in international discussions. The Handbook takes a broad approach to its subject matter both nationally and systemically. Unlike traditional European legal histories, which tend to concentrate on "heartlands" of Europe (notably Italy and Germany), the Europe of the Handbook is more versatile and nuanced, taking into consideration the legal developments in Europe's geographical "fringes" such as Scandinavia and Eastern Europe. The Handbook covers all major time periods, from the ancient Greek law to the twenty-first century. Contributors include acknowledged leaders in the field as well as rising talents, representing a wide range of legal systems, methodologies, areas of expertise and research agendas. v. 1. Jurisprudence. The end of law -- v. 2. The nature of law -- v. 3. The scope and subject matter of law. Sources, forms, modes of growth -- v. 4. Application and enforcement of law. Analysis of general juristic conceptions -- v. 5. The system of law. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant. This book is an intellectual history of Ernst Fraenkel's *The Dual State* (1941, reissued 2017), one of the most erudite books on the theory of dictatorship ever written. Fraenkel's was the first comprehensive analysis of the rise and nature of Nazism, and the only such analysis written from within Hitler's Germany. His sophisticated-not to mention courageous-analysis amounted to an ethnography of Nazi law. As a result of its clandestine origins, *The Dual State* has been hailed as the ultimate piece of intellectual resistance to the Nazi regime. In this book, Jens Meierhenrich revives Fraenkel's innovative concept of "the dual state," restoring it to its rightful place in the annals of public law scholarship. Blending insights from legal theory and legal history, he tells in an accessible manner the remarkable gestation of Fraenkel's ethnography of law from inside the belly of the behemoth. In addition to questioning the conventional wisdom about the law of the Third Reich, Meierhenrich explores the legal origins of dictatorship elsewhere, then and now. The book sets the parameters for a theory of the "authoritarian rule of law," a cutting edge topic in law and society scholarship with immediate policy implications. Nachdruck des Originals von 1894. The exiled Russian sociologist and legal scholar Nicholas S. Timasheff's place in

the forefront of the sociology of law was established with the publication, in 1939, of *An Introduction to the Sociology of Law*. His magnum opus articulates a systematic legal sociology. The book's title is misleading, giving the false impression that the volume is merely a textbook intended for classroom use. It is much more than this. *An Introduction to the Sociology of Law* is a sophisticated treatise that explains, precisely and methodically, the law as a social force. It makes two fundamental points: law can, indeed must, be studied by sociology, and law is a combination of socio-ethical and imperative coordination of human behavior. A new 2023 translation into American English from the original manuscript of Nietzsche's 1887 "Zur Genealogie der Moral" or "On the Genealogy of Morals". This edition is bilingual- the original text is included in the back as reference material behind the English translation. This is volume 8 in the Complete Works of Friedrich Nietzsche by Newcomb Livraria Press. In tracing the origins of morality, the ruthless philosopher-artist surveys all of human history from a Darwinian-historical perspective first, and then from a phenomenological lens. He does not have the Teleological view of history of Hegel, but rather sees a broken mess of repression and mistakes leading to the modern world, which must all be broken down. His great work is to help society return to a pre-socratic greek warrior society. This and his following works *Beyond Good and Evil* and *The Twilight of the Idols* are "the books of the revaluation of all values". Hans Kelsen and Max Weber are conventionally understood as the original proponents of two distinct and opposed processes of concept formation generating two separate and contrasting theoretical frameworks for the study of law. *The Reconstruction of the Juridico-Political: Affinity and Divergence* in Hans Kelsen and Max Weber contests the conventional understanding of the theoretical relationship between Kelsen's legal positivism and Weber's sociology of law. Utilising the conceptual frame of the juridico-political, the contributors to this interdisciplinary volume analyse central points of affinity and divergence in the work of these two influential figures. Thus, the chapters collected in *The Reconstruction of the Juridico-Political* offer a comprehensive reconsideration of these affinities and divergences, through a comparison of their respective reconstruction of the notions of democracy, the State, legal rights and the character of law. From this reconsideration a more complex understanding of their theoretical relationship emerges combined with a renewed emphasis upon the continued contemporary relevance of the work of Kelsen and Weber. *The Two Kingdoms* treats a major achievement of the Carolingian "Renaissance," Frankish ecclesiology, and the influence of 9th-century ecclesiology upon contemporary political thought. Dr. Morrison focuses particularly on the argument that, in this world, government was divided between the earthly kingdom and the kingdom of the Church. Originally published in 1964. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. A path-breaking critical analysis of the meaning and interpretation of the German constitution in the Weimar years (1919-1933).

Hauptbeschreibung Ziel des Bandes ist es, verstreut veröffentlichte Abhandlungen zum japanischen Recht und zur juristischen Ideengeschichte an einem Ort zusammenzuföhren. Er ist eine Grundlage für die wissenschaftliche Beschäftigung mit der juristischen Zeitgeschichte Japans und der dortigen Rechtsentwicklung. Für japanische Rechtswissenschaftler vermitteln den unmittelbaren Zugang zum japanischen Recht, der den Rechtsvergleichern, die aus dem westlichen Sprachraum kommen, häufig verschlossen bleibt. Having fled the city of Oestia after attacking an official, sixteen-year-old Serena--an outcast as well as a mixed-race child of a Gorgio father and Yulang mother--seeks to reunite her family and regain her honor. New essays employing a multitude of approaches to the works of Kleist, in the process shedding light on our present modernity. This book studies major works of literature from classical antiquity to the present that reflect crises in the evolution of Western law: the move from a prelegal to a legal society in *The Eumenides*, the Christianization of Germanic law in *Njal's Saga*, the disenchantment with medieval customary law in *Reynard the Fox*, the reception of Roman law in a variety of Renaissance texts, the conflict between law and equity in *Antigone* and *The Merchant of Venice*, the eighteenth-century codification controversy in the works of Kleist, the modern debate between "pure" and "free" law in Kafka's *The Trial* and other fin-de-siècle works, and the effects of totalitarianism, the theory of universal guilt, and anarchism in the twentieth century. Using principles from the anthropological theory of legal evolution, the book locates the works in their legal contexts and traces through them the gradual dissociation over the centuries of law and morality. It thereby associates and illuminates these masterpieces from an original point of view and contributes a new dimension to the study of literature and law. In contrast to prevailing adherents of Law-and-Literature, this book professes Literature-and-Law, in which the emphasis is historical rather than theoretical, substantive rather than rhetorical, and literary rather than legal. Instead of adducing the literary work to illustrate debates about modern law, this book consults the history of law as an essential aid to the understanding of the literary text and its conflicts. Marriage was historically not only a romantic ideal, but a tool of exploitation of women in many regards. Women were often considered commodities and marriage was far away from the romantic stereotypes people relate to it today. While marriages served as diplomatic tools or means of political legitimization in the past, the discourses about marital relationships changed and women expressed their demands more openly. Discourses about marriage in history and literature naturally became more and more heated, especially during the "long" 19th century, when marriages were contested by social reformers or political radicals, male and female alike. The present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in marital relationships. It focuses on marriage discourses, may they have been legal or rather socio-political ones. In addition, the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates. First published in 1933, this is one of the seminal works on international law, written by a legendary scholar in the field. This republication, featuring a new introduction by Professor Martti Koskenniemi, once again makes this book available to scholars and students in this area.

If you ally compulsion such a referred **Der Kampf Des Rechts Gegen Erpresserische Aktionaere Bestandsaufnahme Kritik Und Perspektiven Saarbruecker Studien Zum Privat Und Wirtschaftsrecht** book that will find the money for you worth, get the extremely best seller from us currently from several preferred authors.
