Organizational Change and Information Systems Nov 26 2022 This book examines a range of issues emerging from the interaction of Information Technologies and organizational systems. It contains a collection of research papers focusing on themes of growing interest in the field of Information Systems, Organization Studies, and Management. The book offers a multidisciplinary view on Information Systems aiming to disseminate academic knowledge. It might be particularly relevant to IT practitioners such as information systems managers, business managers and IT consultants. The volume is divided into six sections, each one focusing on a specific theme. The content of each section is based on a selection of the best papers (original double blind peer reviewed contributions) presented at the annual conference of the Italian chapter of AIS, which has been

held in Rome, Italy in September 2012.

The Systemic Turn in Human and Natural Sciences Nov 02 2020 This book is dedicated to the consolidation and to the expansion of theoretic systems thinking as a necessary integration of the general reductionist and analytical attitude dominant in our culture. Reductionism and analytical approaches have produced significant results in many fields of contemporary knowledge giving a great contribution to relevant scientific discoveries and to their technological application, but their validity has been improperly universalized as the only and best methods of knowledge in every domain. It is nowadays clear that analytical or mereological approaches are inadequate to solve many problems and that we should introduce - or support the diffusion of - new concepts and different research attitudes. A good candidate to support such a shift is the well known theoretical approach based on the concept of "system" that no more considers the elementary constituents of an object, but the entity emerging from the relations and interactions among its elementary parts. It becomes possible to reconstruct several domains, both philosophical and

scientific, from the systemic point of view, introducing fresh ideas in the research in view of a general rational vision of the world on more comprehensive basis. This book contributes to the diffusion and evolution of systemic thinking by focusing on two main objectives: developing and updating the systemic approach in disciplines currently using it and introducing the systemic perspective in humanistic disciplines, where the approach is not widely used. *The Systemic Turn in Human and Natural Sciences: A Rock in the Pond* is comprised of ten chapters. The chapter authors adopt a trans-disciplinary perspective, consisting in the recognition and harmonization of the special outlooks that together, within the general systemic paradigm, gives an ideal unity to the book.

Atti del Convegno "La Conoscenza Botanica e Zoologica in Italia Oct 14 2021

Public Procurement Law Oct 02 2020 Public procurement represents more than 15 per cent of European GDP and is one of the fastest growing sectors of the European economy. Public procurement law is also developing rapidly, not least in the area of remedies for breach of procurement rules. The aim of this book is to analyse the remedy of damages in public procurement law. The European Directive of 11 December 2007

amending Council Directives 89/665/EEC and 92/13/EEC has reaffirmed the importance of damages as a tool to enforce the proper award of public contracts, but has left the exact architecture of the damages remedy in the hands of the Member States. This book offers an overview of damages liability which is inclusive, coherent and practical, covering the relevant law and jurisprudence from a number of countries across Europe and further afield. The contributors are high-profile and authoritative commentators on public procurement law, including policy-makers, judges, academics and practitioners.

Archeologia e Calcolatori, 34.1, 2023 Nov 07 2023 Il numero 34.1, 2022 della rivista Archeologia e Calcolatori è caratterizzato dalla pubblicazione degli Atti di due Convegni internazionali. Il primo riguarda la sedicesima edizione del Convegno ArcheoFOSS, dal titolo “ Open Software, Hardware, Processes, Data and Formats in Archaeological Research ” , svoltosi a Roma il 22-23 settembre 2022 presso la sede del Digilab della Sapienza Università di Roma. Gli Atti, curati da Julian Bogdani e Stefano Costa, comprendono 21 articoli che ben testimoniano il successo e la vitalità dell’ iniziativa, nata nel 2006, cui si è più volte dato spazio nelle pagine della rivista. La seconda parte del volume, che raccoglie 14 contributi, è stata curata da Carlo Citter e Agostino Sotgia ed è dedicata agli Atti della Sessione speciale

“Modelling the Landscape. From Prediction to Postdiction” della settima edizione della Landscape Archaeology Conference (Iasi, Romania 10-15 September 2022). Si tratta di un tema dedicato all'uso dei modelli per lo studio dei paesaggi antichi, considerato sia attraverso l'approccio predittivo “tradizionale”, perché è in uso dagli anni Novanta, sia attraverso quello postdittivo, che i curatori definiscono più “sperimentale”.

Major Companies of Europe Feb 15 2022

Financial Statements in the United States of America Jul 23 2022 Profili giuridici ed economici del bilancio d'esercizio delle società di capitali (corporations) operanti negli Stati Uniti d'America. Vengono delineate le norme federali e statali applicabili, i principali principi contabili U.S. Gaap, e le problematiche che si riscontrano tra le società quotate (public company) e società non quotate. Inoltre viene trattato il bilancio d'esercizio, nell'Unione Indiana, la Rep. Popolare Cinese e la Svizzera. Legal and economic profile of the financial statements about the corporations operating in the United States of America . This book outline the applicable federal and state Acts, Statutes and regulations, the main US GAAP accounting standards, and the problems that exist between the listed companies (public company) and non-listed companies . Also it is outlined the financial statements in the Indian

Union, in the Popular Rep. of China and Switzerland.

Language, Culture, Computation: Computing for the Humanities, Law, and Narratives Jan 05 2021 This Festschrift volume is published in Honor of Yaacov Choueka on the occasion of his 75th birthday. The present three-volumes *liber amicorum*, several years in gestation, honours this outstanding Israeli computer scientist and is dedicated to him and to his scientific endeavours. Yaacov's research has had a major impact not only within the walls of academia, but also in the daily life of lay users of such technology that originated from his research. An especially amazing aspect of the temporal span of his scholarly work is that half a century after his influential research from the early 1960s, a project in which he is currently involved is proving to be a sensation, as will become apparent from what follows. Yaacov Choueka began his research career in the theory of computer science, dealing with basic questions regarding the relation between mathematical logic and automata theory. From formal languages, Yaacov moved to natural languages. He was a founder of natural-language processing in Israel, developing numerous tools for Hebrew. He is best known for his primary role, together with Aviezri Fraenkel, in the development of the Responsa Project, one of the earliest fulltext retrieval systems in the world. More recently, he has headed the Friedberg Genizah Project, which is bringing the

treasures of the Cairo Genizah into the Digital Age. This second part of the three-volume set covers a range of topics related to the application of information technology in humanities, law, and narratives. The papers are grouped in topical sections on: humanities computing; narratives and their formal representation; history of ideas: the numerate disciplines; law, computer law, and legal computing.

Data protection in the context of covid-19. A short (hi)story of tracing applications Nov 14 2021 The volume presents the results of a research project (named “Legafight”) funded by the Luxembourg Fond National de la Recherche in order to verify if and how digital tracing applications could be implemented in the Grand-Duchy in order to counter and abate the Covid-19 pandemic. This inevitably brought to a deep comparative overview of the various existing various models, starting from that of the European Union and those put into practice by Belgium, France, Germany and Italy, with attention also to some Anglo-Saxon approaches (the UK and Australia). Not surprisingly the main issue which had to

be tackled was that of the protection of the personal data collected through the tracing applications, their use by public health authorities and the trust laid in tracing procedures by citizens. Over the last 18 months tracing apps have registered a rise, a fall, and a sudden rebirth as mediums devoted not so much to collect data, but rather to distribute real time information which should allow informed decisions and be used as repositories of health certifications.

The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945:

Volume III Dec 04 2020 Accounts of significant sites in Hungary, Vichy France, Italy, and other nations, part of the multi-volume reference praised as a “staggering achievement” (Jewish Daily Forward). This third volume in the monumental seven-volume encyclopedia, prepared by the Jack, Joseph, and Morton Mandel Center for Advanced Holocaust Studies at the United States Holocaust Memorial Museum, offers a comprehensive account of camps and ghettos in, or run by, Croatia, Hungary, Italy, Romania, Bulgaria, Slovakia, and Vichy France (including North Africa). Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes;

and details of the ghetto 's liquidation. Personal testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites—previously unknown or overlooked in the historiography of the Holocaust—make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe.

Transformations of Late Antiquity Sep 05 2023 This book focuses on a simple dynamic: the taking in hand of a heritage, the variety of changes induced within it, and the handing on of that legacy to new generations. Our contributors suggest, from different standpoints, that this dynamic represented the essence of 'late antiquity'. As Roman society, and the societies by which it was immediately bounded, continued to develop, through to the late sixth and early seventh centuries, the interplay between what needed to be treasured and what needed to be explored became increasingly self-conscious, versatile, and enriched. By the time formerly alien peoples had established their 'post-classical' polities, and Islam began to stir in the East, the novelties were more clearly seen, if not always welcomed; and one witnesses a stronger will to maintain the momentum of change, of a forward reach. At the same time, those in a position to play now the role of heirs were well able to appreciate how suited to their needs the 'Roman' past

might be, but how, by taking it up in their turn, they were more securely defined and yet more creatively advantaged. 'Transformation' is a notion apposite to essays in honour of Peter Brown. 'The transformation of the classical heritage' is a theme to which he has devoted, and continues to devote, much energy. All the essays here in some way explore this notion of transformation; the late antique ability to turn the past to new uses, and to set its wealth of principle and insight to work in new settings. To begin, there is the very notion of what it meant to be 'Roman', and how that notion changed. Subsequent chapters suggest ways in which fundamental characteristics of Roman society were given new form, not least under the impact of a Christian polity. Augustine, naturally, finds his place; and here the emphasis is on the unfettered stance that he took in the face of more broadly held convictions - on miracles, for example, and the errors of the pagan past. The discussion then moves on to

The French Revolution as a Moment of Respatialization
Apr 19 2022 The French Revolution has primarily been understood as a national event that also had a lasting impact in Europe and in the Atlantic world. Recently, historiography has increasingly emphasized how France's overseas colonies also influenced the contours of the French Revolution. This volume examines the effects of both dimensions on the reorganization of

spatial formats and spatial orders in France and in other societies. It departs from the assumption that revolutions shatter not only the political and economic old regime order at home but, in an increasingly interdependent world, also result in processes of respatialization. The French Revolution, therefore, is analysed as a key event in a global history that seeks to account for the shifting spatial organization of societies on a transregional scale.

ECDG 2018 18th European Conference on Digital Government Oct 26 2022 The European Conference on e-Government has been running now for 18 years. This event has been held in Italy, Ireland, Belgium, UK, Slovenia, to mention a few of the countries who have hosted it. This year we are refocusing the conference to look more broadly at the area of Digital Government. The conference is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars, public sector workers and individuals who are engaged in various aspects of Digital Government research and application.

European Democratic Institutions and Administrations

Jun 29 2020 This book presents the results of extensive international comparative research into the effects of the economic and financial crisis on democratic institutions and social cohesion policies. The collected studies describe and analyse the measures (often referred to as "reforms") adopted to counter the crisis and the effects of these measures. It investigates three areas: the impact on the functioning of institutions, with respect to the relationship between representative institutions and governments, and the organisational structure of administrations at national and local levels; the impact that the austerity policies on public spending have on social rights; and the impact on traditional instruments of public action (administrative simplification, public services delivering, the use of common assets). The general findings highlight the effect of reducing the administrative and government capacity of the democratic institutions: the public sector, rather than being innovative and made more effective, declines, offering increasingly poor public services and making bad decisions, fuelling substantive or formal privatisation solutions, which in turn cause further weakening.

Electronic Government and the Information Systems
Perspective Aug 24 2022 This book constitutes the
refereed proceedings of the 7th International Conference
on Electronic Government and the Information Systems
Perspective, EGOVIS 2018, held in Regensburg,
Germany, in September 2018. The 19 revised full papers
presented were carefully reviewed and selected from 22
submissions. The papers are organized in the following
topical sections: digitalization and transparency;
challenges in e-government technology and e-voting;
knowledge management in the context of e-government;
semantic technologies and the legal aspects; open data
and open innovation; and e-government cases - data
and knowledge management.

Handbook of Research on International
Entrepreneurship Strategy Aug 12 2021 This impressive
Handbook provides a dynamic perspective on the
international entrepreneurial strategies of SMEs,
including the role and experience of their founders, as
well as the collaboration of these SMEs in networks with
larger firms. The expert contributors from all over the
world and the editors explore the origin and evolution of
internationalizing SMEs, the changing history and the
future outlook of this sector. They study the effects of

different cultures on the origin and growth of entrepreneurship and SMEs. The Handbook also outlines the various types of Born Globals that emerge from different parts of the world. This book will prove essential reading for researchers and students of international business, entrepreneurship and SMEs. Founders of internationalizing SMEs will also learn about novel management practices, whilst educational institutions and governments will find invaluable insights on how to foster and support SMEs in their internationalization efforts.

Il Concorso per ASSISTENTI e SPECIALISTI Area Amministrativa May 21 2022 Questo Compendio è il manuale completo degli insegnamenti di base richiesti per il concorso pubblico per Assistenti e Specialisti nell'Area Amministrativa della Regione Lombardia, ma anche per ogni altro tipo di concorso negli Enti Locali (categoria C). In esso, in particolare, sono esposti, con estrema chiarezza, gli argomenti che più frequentemente vengono richiesti ai candidati in sede concorsuale. Nelle prime sezioni vengono tracciate, innanzitutto, le basi fondamentali del pensiero giuridico, con attenzione al diritto costituzionale, quello della Pubblica Amministrazione, anche alla luce delle ultime riforme, riguardanti sia la Dirigenza, sia il personale non dirigente; al "nuovo" procedimento amministrativo e al diritto di accesso agli atti delle pubbliche

amministrazioni, alla normativa anticorruzione, alla gestione contabile dello Stato e degli Enti Locali (alla luce del DLgs 126/2014), al sistema dei controlli, interni ed esterni agli Enti, e quello degli appalti pubblici, con i più recenti correttivi (D.Lgs 19 aprile 2017, n 56, L. 55/2019); al diritto penale, nella parte relativa ai reati contro la P. A., aggiornati alla recente legge cd "spazzacorrotti". Chiude il compendio una sintesi della normativa sulla tutela della privacy ed altra relativa ai principi base dell'Informatica. Ai candidati tutti l'augurio, da parte della MANUALISTICA STUDIOPIGI, di una proficua collaborazione e di una felice conclusione delle prove concorsuali.

Electronic Government Dec 16 2021 In defining the state of the art of E-Government, EGOV 2002 was aimed at breaking new ground in the development of innovative solutions in this important field of the emerging Information Society. To promote this aim, the EGOV conference brought together professionals from all over the globe. In order to obtain a rich picture of the state of the art, the subject matter was dealt with in various ways: drawing experiences from case studies, investigating the outcome from projects, and discussing frameworks and guidelines. The large number of

contributions and their breadth testify to a particularly vivid discussion, in which many new and fascinating strands are only beginning to emerge. This begs the question where we are heading in the field of E-Government. It is the intention of the introduction provided by the editors to concentrate the wealth of expertise presented into some statements about the future development of E-Government.

The Right of Access to Public Information Sep 12 2021
This book presents a comparative study on access to public information in the context of the main legal orders worldwide (inter alia China, France, Germany, Japan, Russia, Sweden, United States). The international team of authors analyzes the Transparency- and Freedom-to-Information legislation with regard to the scope of the right to access, limitations of this right inherent in the respective national laws, the procedure, the relationship with domestic legislation on administrative procedure, as well as judicial protection. It particularly focuses on the Brazilian law establishing the right of access to information, which is interpreted as a benchmark for regulations in other Latin-American states.

The IT Revolution and its Impact on State,

Constitutionalism and Public Law Jul 31 2020

What is the future of constitutionalism, state and law in the new technological age? This edited collection explores the different aspects of the impact of information and technology revolution on state, constitutionalism and public law. Leading European scholars in the fields of constitutional, administrative, financial and EU law provide answers to fascinating conceptual questions including: - What are the challenges of information and technological revolution to sovereignty? - How will information and technology revolution impact democracy and the public sphere? - What are the disruptive effects of social media platforms on democratic will-formation processes and how can we regulate the democratic process in the digital age? - What are the main challenges to courts and administrations in the algorithmic society? - What is the impact of artificial intelligence on administrative law and social and health services? - What is the impact of information and technology revolution on data protection, privacy and human rights?
