Jennifer Garza-Cuen and Odette England: Past Paper // Present Marks Feb 03 2021 In 2018, Jennifer Garza-Cuen and Odette England spent a week at the Robert Rauschenberg Foundation Residency in Captiva, Florida, collaborating on a series of nearly 200 photograms. The images were made in Rauschenberg's swimming pool, using expired 1970s gelatin silver paper found in his darkroom. The two artists 'activated' the paper by piercing or slashing the bags and envelopes using pens, scissors, or knives; folding the silver paper at odd angles; or layering them inside the bags. Some sank to the bottom of the pool, while others floated on top or by the filtration units. Exposures were made overnight and throughout the day, allowing different levels and intensities of sunlight, moonlight, and water to penetrate the paper.

Study Skills 11+ Apr 07 2021 This book covers everything you need to know in preparing children for both pre-tests and 11+ entrance exams for admission into independent and grammar schools. It sets out ways in which children can become successful and confident learners over the years and months building up to these tests taken in Year 6. The author passionately believes that intelligence is not fixed but can be nurtured and grown with the right support. The key to putting this into action is to understand how you learn and to master the strategies for learning, retaining and recalling information effectively. This book will help parents and teachers support children approach one of their first academic hurdles with confidence. The book begins by looking at why revision is important and how the brain works. It introduces the concept of growth mindset and how with the right support, confidence, resilience and independence can be nurtured. It provides guidance on physical and mental wellbeing (including a section on coping with stress). It moves on to cover ideas on how to gain control of studying and how to develop good organisational skills. Being healthy, feeling stress free, in control and excited about school is vital. There is a comprehensive chapter study skills and how to master them, from learning how to identify key words, using flashcards, to creating mindmaps. Examples based on the 11+ syllabus and questions or tasks to revise the skill are given throughout. The book then focuses specifically on the skills needed for the 11+ tests. It offers wide-ranging advice on each subject (English, Maths, Verbal and Non-Verbal reasoning), how to prepare for online tests, interviews and test day tips. Current thinking and research by world-renowned social psychologists, psychologists and educators is at the heart of this book and are referenced. Tips for parents supporting their children's

learning journey are given throughout.

11+ Mathematics Practice Test Papers: 2019 Edition Aug 12 2021 Letter to Parents: After years of helping prepare students to sit their 11+ exams we, at Educate Sterling, realised that much of the fundamental progress made by students is done through sitting past papers at home. Unfortunately, because each school only release one or two specimen papers a year, parents often expressed frustration at not being able to find enough papers for their children to practice on. When evaluating the papers which were available to download from different websites, we found that most were aimed at preparing students for the "average" UK entrance test. These have considerably easier questions than those of many central London schools. Realising this gap in the market, we started to design and write past papers that reflected the format and difficulty of the most challenging 11+ entrance exams. These not only match the syllabuses but also contain the types of "creative maths" questions students will face. There are a number of things to remember when attempting these tests. Firstly, they are hard and are supposed to push even the most academically able students. Therefore, the scores in these tests may be lower than what your child normally receives. As a rough benchmark, anything above 60% is good, 70% is very good and 80% is amazing. As these tests are harder than the norm, it may be sensible to use them at the end of your child's preparation, not the beginning. This will make sure that their confidence is not dampened by a poor test performance. Lastly, if you would like any help preparing for the exam, or advice on choosing the best school for your child, please feel free to get in contact with us using our website - EducateSterling.co.uk. We have helped many families support their child through the challenging process of applying to independent schools in London. Why not get in contact to see if we can help you too? Thank you and we hope you find the tests useful.
