We Fed an Island Oct 23 2020 FOREWORD BY LIN-MANUEL MIRANDA AND LUIS A. MIRANDA, JR. The true story of how a group of chefs fed hundreds of thousands of hungry Americans after Hurricane Maria and touched the hearts of many more Chef José Andrés arrived in Puerto Rico four days after Hurricane Maria ripped through the island. The economy was destroyed and for most people there was no clean water, no food, no power, no gas, and no way to communicate with the outside world. Andrés addressed the humanitarian crisis the only way he knew how: by feeding people, one hot meal at a time. From serving sancocho with his friend José Enrique at Enrique's ravaged restaurant in San Juan to eventually cooking 100,000 meals a day at more than a dozen kitchens across the island, Andrés and his team fed hundreds of thousands of people, including with massive paellas made to serve thousands of people alone.. At the same time, they also confronted a crisis with deep roots, as well as the broken and wasteful system that helps keep some of the biggest charities and NGOs in business. Based on Andrés's insider's take as well as on meetings, messages, and conversations he had while in Puerto Rico, We Fed an Island movingly describes how a network of community kitchens activated real change and tells an extraordinary story of hope in the face of disasters both natural and man-made, offering suggestions for how to address a crisis like this in the future. Beyond that, a portion of the proceeds from the book will be donated to the Chef Relief Network of World Central Kitchen for efforts in Puerto Rico and beyond.

Switched on Pop Feb 07 2022 Pop music surrounds us - in our cars, over supermarket speakers, even when we are laid out at the dentist - but how often do we really hear what's playing? Switched on Pop is the book based on the eponymous podcast that has been hailed by NPR, Rolling Stone, The Guardian, and Entertainment Weekly for its witty and accessible analysis of Top 40 hits. Through close studies of sixteen modern classics, musicologist Nate Sloan and songwriter Charlie Harding shift pop from the background to the foreground, illuminating the essential musical concepts behind two decades of chart-topping songs. In 1939, Aaron Copland published What to Listen for in Music, the bestseller that made classical music approachable for generations of listeners. Eighty years later, Nate and Charlie update Copland's idea for a new audience and repertoire: 21st century pop, from Britney to Beyoncé, Outkast to Kendrick Lamar. Despite the importance of pop music in contemporary culture, most discourse only revolves around lyrics and celebrity. Switched on Pop gives readers the tools they need to interpret our modern soundtrack. Each chapter investigates a different song and artist, revealing musical insights such as how a single melodic motif follows Taylor Swift through every genre that she samples, André 3000 uses metric manipulation to get listeners to "shake it like a Polaroid picture," or Luis Fonsi and Daddy Yankee create harmonic ambiguity in "Despacito" that mirrors the patterns of global migration.

Replete with engaging discussions and eye-catching illustrations, Switched on Pop brings to life the musical qualities that catapult songs into the pop pantheon. Readers will find themselves listening to familiar tracks in new ways and not just those from the Top 40. The timeless concepts that Nate and Charlie define can be applied to any musical style. From fanatics to skeptics, teenagers to octogenarians, non-musicians to professional composers, every music lover will discover something ear-opening in Switched on Pop.
